

Dell Projector remote control - works on all Dell model projectors installed at MSC

Power - ON/OFF – powers unit on / off. Power Off requires 2nd button push

Menu selection keys – use to “arrows” to navigate, and “check mark” to set menu items

Menu key

Laser Pointer

Freezes the current slide or projection

Input selection keys, press button for each associated device. Projectors are usually “VGA-A” and the DVD/VCR player is Video, S-Video (or Composite on some units)

Projector Source – manually scrolls through connected inputs, one at a time

Blank Screen – temporarily “blacks out” the screen image
